GDR Scholars Will:
• Collaborate with cutting-edge scientists, scholars and innovators from around the globe
• Explore countries like Brazil, Colombia, India, Indonesia, the Philippines, Senegal and South Africa
• Discover and scale new technologies and innovations
• Connect to a worldwide network of development professionals
• Co-design sustainable solutions to development challenges
• Work hands-on with researchers, NGOs and governments in developing countries

Eligibility and Requirements
• Enrollment as a graduate or post-doctoral student
• U.S. citizenship or approved international student status
• Cumulative GPA of at least 3.0
• Identification of a research opportunity matching your skills
• Letter of reference from your faculty mentor
• Letter of acceptance from your host institution

All qualifying research, travel, and living expenses will be paid.

Application Process
1. Visit gdrscholars.asu.edu where you'll find a link to the USAID online catalog. Here, you can filter opportunities by discipline, country, length of project and more.
2. Once you find a host opportunity, submit an application through its listing in the USAID online catalog. You should apply for multiple opportunities but only accept one.
3. Prospective GDR Scholars must enter the application process by creating an account on the USAID online catalog. Work with a faculty mentor, both through the application process and for the duration of your enrollment in the GDR Program.
4. Upon your acceptance, the host will send you a letter of invitation that you will use in your final application for the project.
5. Prepare and submit your final application packet to gdrscholars@asu.edu by the given deadline. Your GDR Program Manager, Mohamed Abdalla, will answer all your questions regarding your final application packet.
