Fulton Undergraduate Research Initiative Workshop for Fulton Schools international students
Thursday, September 7, 2021
2–3 p.m.
Engineering Center F (ECF) 130, Tempe campus

What is FURI?
The Fulton Undergraduate Research Initiative, known as FURI (pronounced like “fury”), is designed to enhance your engineering and technical undergraduate curriculum by providing hands-on lab experience.

Why should I do it?
Having research experience will add value to your resume and increase your opportunity to find a job.
Join us to explore research opportunities. Learn how to get started, find research opportunities and more at the Undergraduate Research website.
