

FURI

Fulton Undergraduate Research Initiative

Spring 2023 Symposium

Learn more about 100+ research projects from students in the **Fulton Undergraduate Research Initiative (FURI)** program, **Master's Opportunity for Research in Engineering (MORE)** program and the **Grand Challenges Scholars Program (GCSP)** spanning seven research themes.

Friday, April 21, 2023 1–3 p.m.

Sun Devil Fitness Complex, Tempe campus

Modeling **additive manufacturing success**, improving engineering **student mental well-being**, and analyzing the supply chain to **predict detrimental global events** are just some of the ways student researchers are making an impact.
