

Technological entrepreneurship and management program

TEM 598 Technology Innovation Lab

Do you want to be involved in innovation that will reshape the future of aerospace?

Technology Innovation Lab, or TIL, is an incubator-style crash course in innovation development in partnership with Honeywell Aerospace Technologies.

12-weeks + team working breaks to propose technical and business solutions with industry professionals.

The best project can participate in a **100-Day incubation process with the Honeywell Kickstarter Program at Aerospace Innovation Space at ASU.**

Applications close March 22, 2024
