

SPECIAL EVENT

Interview with Acclaimed Climate Journalist
Abrahm Lustgarten about his recently released book:

On the Move: The Overheating Earth and the Uprooting of America

Wednesday, April 17 @ 1:00 – 2:00 p.m. MT
Walton Center for Planetary Health | Auditorium 107
777 E University Dr, Tempe, AZ 85287

"On the Move explains how we got here and where we're headed. It's crucial guide to the world we are creating."

—Elizabeth Kolbert, author of *Under a White Sky* and *The Sixth Extinction*

Join ASU's Ten Across Initiative Executive Director, Wellington "Duke" Reiter, in a chat with acclaimed climate journalist Abrahm Lustgarten discussing his recently released book, ***On the Move: The Overheating Earth and the Uprooting of America***.

Employing the most current climate data and predictive models, Abrahm shows how America's population will be squeezed northward into a shrinking triangle of land stretching from Tennessee to Maine to the Great Lakes. The places many of us now call home are at risk, and *On the Move* reveals how we'll deal with the consequences.

This special event is hosted by ASU's Julie Ann Wrigley Global Futures Laboratory.
