

20 Years of Launching Innovators: A Biodesign Institute Symposium

Friday, Nov. 15 | 9 a.m.–5:30 p.m.

Biodesign Auditorium BDB105

This free, daylong event offers a unique chance to explore science, rich data and personal STEM career experiences through insightful talks from people who have been in your shoes.

Free event

Kicking off the day is Parag Mallick with “Moments and choices from space camp to single molecule proteomics.” Originally trained as an engineer and biochemist, Mallick’s research spans proteomics, computational and experimental systems biology, cancer biology and nanotechnology. In addition to his academic training, he is also an accomplished magician.

Former ASU Biodesign team members presenting include:

- **Brian Johnson**, National Cancer Institute
- **Peaches Ulrich**, Caris Life Sciences
- **Alyssa Pannich**, Georgia Tech and Emory universities
- **Trent Northen**, Lawrence Berkeley National Lab
- **Joe Wang**, University of California San Diego
- **Sudhir Kumar**, Temple University
- **John Chaput**, University of California Irvine
- **Lokesh Joshi**, University of Galway, Ireland
- **Jin He**, Florida International University
- **Matthew Greving**, Stoic Therapeutics

Enjoy a full day of inspiration, networking and learning, complete with a complimentary lunch and a coffee bar to keep you energized.

Don’t miss this opportunity to gain valuable insights and connect with a community that’s **shaping the future of science and innovation.**
