

FSE 302

Applied Innovation in Corporate Technology

Arizona State University and Starbucks have partnered to offer FSE 302 Applied Innovation in Corporate Technology, a unique 3-credit elective course designed to inspire and prepare future innovators like you. This course equips students with an understanding of how to apply technology innovation within a large corporate setting. Students are introduced to varied technology roles within representative multi-billion-dollar corporations, and how these roles directly impact corporate success through innovation.

Topics

- Security and data privacy
- Order and pay
- Digital workplace tools
- Supply chain operations
- Technology support

Content

This is a great opportunity to learn more about innovating security and data privacy, order and pay, digital workplace tools, supply chain operations, and technology support.

Registration

FSE 302 is available to Fulton Engineering students through iCourse and ASU Online. See QR Code for additional details.
